

The company "OSTRAPACK" was installed in 2001.

Scope of the company is packing of confectionery products. It can be simply filling of bags up to hand wrapping in paper, ribbon finishing, etc..

Since 2005 the company moved to it's actual location in Ostrava, the third largest city in Czech republic after Prague and Brno, with about 600.000 inhabitants. Ostrava is located close to the border with Poland and Slovakia.

The company is owned by Belgian shareholders for 90% and 10% is owned by the local management.

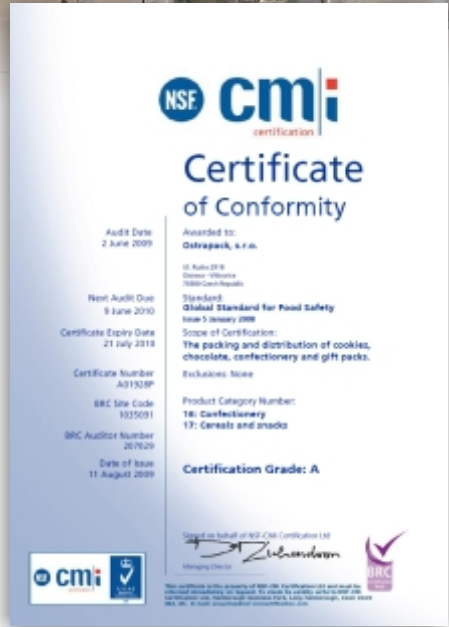

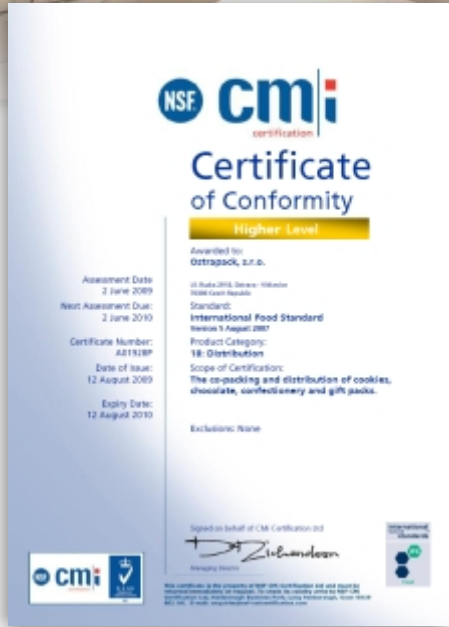

Up to 250 people operate this plant in a 3 shift operation, this to secure that the orders reach our customers, world wide, in time and in perfect condition.

The 10.000m<sup>2</sup> building consist of 4 floors. Each temperature controlled floor is dedicated to a certain activity to have the best control.

*When wrapping needs more than machines...*

Also the "Ostrapack" wrapping facility is IFS and BRC certified, the prove that hygienic standards, quality control and traceability from start to end are installed.

The chocolates are still packed and wrapped by hand in trays or boxes, with ribbons fashioned and tied by experienced, nimble fingers.

Still today big part of this handmade craftsmanship can be offered, what after all made the Belgian Chocolates so famous around the world. The ideal gift for whatever occasion with a touch of refinement.
